

## Designed for Early Childhood Educators

As a Preschool Supervisor/Centre Manager or Childhood Educator, you are required to work with people, be they your staff, the lovely children who come daily to learn and play or their parents, the paying customers. Working with people who are different from you can be challenging. Our differences in thinking and behavior inevitably lead to miscommunication and unnecessary friction at times.

### Are you experiencing these challenges?

- Do you find it difficult to communicate with your customers and colleagues at times?
- Do you sometimes not see eye to eye with your colleagues' working style?

# Why Meeting Of The Minds™?

Every individual is unique.

We look, behave, speak and interact in our own ways. A Meeting of the Minds™ program is designed to ensure that every participant discovers who he is and understands how he works and communicates. It reveals individual thinking and behavioral preferences through experiential and interactive learning.

It's a results-driven and engaging session focused on how to use Emergenetics as a tool for increasing self-awareness and better communication.

## PARTICIPANTS EXPERIENCE

- Hands-on team-building exercises
- Insights into how they think and behave
- Tools for communication and work styles

## ORGANISATIONS GAIN

- Better team and conflict management
- Better communication leading to better teamwork amongst staff and improved relationship with the parents
- Understanding of colleagues' work style leading to greater productivity

Through the Meeting Of The Minds™ Program, Logos Learning is here to help you understand yourself and others. Learn how to improve your communication with the children you take care of, their parents and your staff.

## Our Facilitators

*Or Chee Meng*

Meng brings with him close to 2 decades of team development expertise as an experiential training consultant having work with teams from diverse background. Through conducting strength-based teambuilding, coaching focused team workshop and individual coaching for performance, Meng uses profiling tools to enhance understanding by building upon participants' strengths.

Choon Jin is currently the CEO of Logos Learning. In his various roles across his career, he has ran workshops and trainings for small group audiences to speaking on the platform at conferences. He has also trained in Malaysia, Mauritius and China for his work.

Choon Jin is a certified Emergenetics Associate which is a brain based profiling tool that he uses in his life planning and team building programs.

*Ng Choon Jin*

Mr Richard Toh is our consultant in the content development of this workshop. Richard has a Diploma in Preschool teaching from Seed Institute. He has also provided training services to organisations such as the National Institute of Education and Civil Service College. He used to own a preschool business in which he successfully rebranded it using the Character First! Education curriculum. He ran the business for 12 years before selling it to a larger chain recently.

## Businesses benefit from the Productivity and Innovation Credit (PIC) Scheme!

You can enjoy a 400% tax deduction and/or 60% cash payout, as well as a matching cash bonus, when you invest in PIC-qualifying activities.
